Subject: SHDF

The SHDF scholarships being provided by your philanthropic organization are of immense value to the students of this rural, women's institution.

The girl students receiving the SHDF scholarships are from rural background and extremely poor families. Some of the families are so poor that they have an income of less than 3 dollars a day. Some of the recipients have lost their fathers and have no source of income. They are totally dependent on their relatives for financial support. The SHDF scholarships are a great support to these needy students who may not be able to continue studies without it.

The majority of the recipients are the first college going generation in their family. Parents of most of them have not even passed high school, of some are totally illiterate. In almost all the families, these students are the first girls to go to college.

It is heartening to note that all the recipients of the SHDF scholarship are doing well in their studies. Almost all of them have received Ist division and some have even received merit positions in the college in university exams.

All the recipients are eager to for higher studies and wish to make a career for themselves. They have high aspirations and wish to join courses like MBA and MCA. The SHDF scholarships have proved a big morale booster and have given wings to their dreams.

The students are really thankful to SHDF for the financial assistance. They realize what a big help these are to them. Many of them are candid about the fact that they would not be able to continue their studies without your help and support. Some of the students are so grateful that they have themselves resolved to contribute to SHDF once they make their careers.

As the head of the institution, I greatly appreciate your organizations efforts. It has been a life changer for a number of students. I would surely welcome an expansion of this program so that more girl students from rural institutions like ours can benefit from it. I also appreciate the fact that in keeping with Guru Nanak Dev Ji's philosophy of universal brotherhood, the scholarships are awarded to deserving and needy students irrespective of their caste, creed and religion.
